

Law and Love – Points in Summary

1. All Law is contained within a world of fiction, of which its companion is fear.
2. There is no truth in fiction and all law is based upon finding guilt or non guilt, but not truth.
3. Ignorance of the Law is no excuse for breaking the law.
4. The purpose of having a name is to be possessed by demonic entity in order to be controlled by fiction. The identification by a name is to make the life form into a material object that can be owned and thus enslaved and possessed.
5. All law comes from the finite world of mind and thus Bloodline DNA determines rulers.
6. Love does not have any need for names or laws; love is based upon truth and oneness.
7. There are only two jurisdictions fear and love.
8. Everything has a name so that it can be owned and possessed as property. Thus names are fictional representations that create a finite illusion of reality and establish imaginary walls rather than the simple truth that all is one. Countries have names for example, because if they didn't they could not be identified as being separate from the whole and thus ruled over.
9. Never sign a documents and if you are forced to put "Without Prejudice" above your signature to denote the challenge of Jurisdiction.
10. Law is Contract and all consent of contract is derived from your actions or non actions to enter a contract. All Contracts that are enforced make use of names, because of the

- materialistic ownership derived from using a name. Man created as male or female by God has no name and thus is not challenged in court.
11. All commerce is based upon names and titles.
 12. All Commerce is the illusion of ownership and thus control over the objects holding those names and titles. To give a name or title to an object is to make it into a copy of creation and not creation itself
 13. All fiction based materialism is based upon the idea of formation rather than creation of reality. Formation takes the concept of ego acknowledging it formed something that was created by simply making a small change to what was created, such as giving a name to something or changing the DNA structure of something.
 14. DNA is based on 4th dimensional programming and thus formation and programming of energy into a form of life, rather than a kind of life that comes from creation.
 15. To go to court implies consent and thus contract.
 16. The master is the one who extends law to others and thus owns the law extended and controls the rules of those laws in their application. Those using laws of another become slaves by virtue that they are bowing to another individual's authority. This authority is hidden behind titles and names once again, but all based upon fiction and demonic possession.
 17. Dark and Light are one in the same energy. Dark is parasitic and Light if is giving, but both are intrinsic to creating the illusion of duality for which the life force of life is sucked away by darkness and manipulated by false light. True light comes from love and there is no darkness associated with True light. True light comes from Oneness and love.
 18. The two most powerful statements you can use in thwarting the demonic efforts of law are, "I do not wish to contract with you and I do not give you my consent to proceed against me". You can always nullify a contract and withdraw consent at a later time. Do not go to court if you withdraw consent or contract as it implies that you are giving consent and wishing to enter into contract. All law is contained within a fiction. No one can prove that you have a name and is why they ask you for your name; which is a confession that you are demonic entity that is enslaved by the parasitic bloodline that controls and owns the law being extended to you.
 19. Law is based upon fear and thus is the exact inverse reflection of all attributes of love.
 20. Legal all caps name is a fiction so is your given names.
 21. Common Law is based upon the same principle of demonic ownership. The primary principle of Common law is about property and harm to property. A person is identified as property in Common law via the given names the individual identifies with.
 22. The only escape from law is through love. Understand what love is and you gain the keys to your freedom as the parasites can only recognize fiction and fear.
 23. Formation of mind based realities is done via mathematical relationships.
 24. Creation is done by love and relationships are all seen from the perspective of balance and math, thus it is not finite but infinite.
 25. A Court Room or Court House does not actually exist as it is merely a building made from the same energy and life force that you are made from, we are all One. It only becomes a

- Court House by the mind putting a name on the building or stating it by name and thus it falls into the domain of mind only and thus demonically possessed and owned. The function of naming anything is the function of possession and ownership of the mind rather than seeing it as a part of you.
26. Demons exist because we direct our energy into the imaginary and believe the imaginary to be true. Remove your attention from the imaginary you stop giving life to the parasite world of the imaginary.
 27. No one can prove that they are a name or a title and those using them for the purpose of gaining authority over you are without any credibility.
 28. To sign a letter means to validate the letter in law. If you do not wish to be in law, then don't sign the letter and stay in love. To sign something is to say that you are set apart from the thing as you are saying it is not part of you.
 29. All law is dead law when it is written down on paper. Living law comes from what you say and yet both are law. Love trumps law in every way because love does not recognize boundaries so making a statement from love rather than law grants you your freedom from the demonic possession of the parasites.
 30. Mammon is the control system of mind, but no one can tell us what we can or cannot do with the fiction presented to us when we state we are operating from our own free will and love.
 31. Dominion means to rule as per Genesis 1:26-28 and it is extended to you from God. Have you ever met God and do you wish to be enslaved by God or the LORD God for that matter? The Bible is a mind trick to get you to forget that you are love and part of all that exist. You cannot own or rule over yourself, but you can create balance and harmony within yourself through truth and cooperation. All fiction presented to you should be identified as such and thus you have equal right to manipulate the fiction as does anyone else, which eliminates the aspect of ownership over fiction and brings everyone back to love and truth.
 32. We have to power within us to create 4th dimensional barriers against demonic entities by imagining we are surrounded by love and light and thus also part of that light purifying all that it touches by lifting the conscious awareness and vibration of all around us, even the earth herself.
 33. Earth is a live spiritual being we can connect too. There is no empty space; there is only infinite love and life which we are all part of.
 34. All languages convey energy. Languages are developed via the mind and transmit magical thought forms. Most modern languages are derived from Latin, a dead language, which instills negative energy and weak magic in its use. Magic is mind based. When you talk use love behind your words and it will purify the meanings of what you say and lift those around you.
