

Rule of Law? You got to be kidding me!

Here a Judge that vowed never to allow a complaintant to win, ever. His record of 20 years behind the bench proves it.

<http://www.washingtonsblog.com/2010/10/1-of-2-administrative-judges-at.html>

An actual case where the 16 Amendment was brought up in court as being true that it was not ratified, but passed off as a rudimentary fact and they continued as if it were law.

Now then is this corruption or the simple reality of law? Remember what I have always stated that either you have dominion or you are a slave. Either you are the authority or you are giving away your authority to be a slave. We were all created equal and the Bible states we were all given dominion. If you choose to be a slave and allow a Judge to make any decision for you, then don't get upset that you got a ruling only deserving of a slave.

Always keep in the fore front of your mind that they make use of contracts and it is your compliance with them that creates the contracts. Compliance equals contact. All they care about is contract. Beyond that you go into la la land of law, where any number of rules, statutes, codes, regulations etc. can be upheld or dismissed based upon one man's whim, usually fitting the agenda of enslaving the goyium or Gentiles. Keep in mind most of those involved in law enforcement and judiciary etc. are involved in freemasonry and thus devil worship and secret agendas etc. Are these the people you want to determine your fate, or would you rather simply tell them you do not wish to contract with them and end your conversation with them there?

Money is an evil ruse. It allows people to enslave the masses by making the labor of the few to far less than that of the masses. Labor is labor and no matter what we do it is hours spent doing things we do not really generally want to do, in compensation for our most precious resource, time. The deck is stacked and the sooner we move away from money or mammon in general the better things will be for all of us.
